

PALLET RACK & COLUMN PROTECTION

PROTECT-IT™

DON'T TAKE THE RISK!

Health and Safety Laws now require the installation of rack protection where pallet racking is vulnerable to MHE impact.

Pallet racking is not designed to withstand multiple forklift impacts. Even low speed collisions can lead to structural damage that places workers at risk and is costly to repair.

PROTECT-IT™

Proven worldwide to offer exceptional impact resistance

- ✓ Sold in over 60 countries = proven performance
- ✓ Tested by BUREAU VERITAS for front & side impact *
- ✓ Passes EN 15512-2009, FEM 10.2.02, AS4084-2012 standards
- ✓ Reduces Rack Damage = \$\$\$ saved
- ✓ Improves Workplace Safety = Reduces risk of Collapse
- ✓ Unique Patented clip design = No need to drill concrete
- ✓ Securely grips to the column = no extra fasteners needed
- ✓ Installed in minutes = low labor cost = \$\$\$ saved
- ✓ Unique 5.25" height and stacked configuration = flexibility
- ✓ Low repair cost = replace only damaged components
- ✓ Impact resistant in cold stores to -40 degrees
- ✓ 402-111(Protect-it 3L) suits 3" x 3" rack columns
- ✓ 402-121(Protect-it 3M) suits 3" x 1⁵/₈" rack columns
- ✓ We recommend 3 Protect-it's per column = total 15³/₄"
- ✓ Made from ultra high impact absorbing polymer

Simple Installation

We recommend regular rack inspections in accordance with local Health & Safety Laws. Replace all damaged products immediately.

* Refer to our website for impact test reports

The Protect-it™ product range also offers solutions to suit most rack brands and column sizes up to 5" wide.

We also cover 3" x 6", 3" x 1³/₈", 3" x 4", 4" x 3", 3¹/₄" x 2"

Please contact us for information on other sizes.
